1 Introduction

The BCA Lifts and Escalators Application system (LEAP) was created to automate the process involved in the lifecycle of lifts and escalators, from inception to termination. The LEAP system would facilitate the involvement of all actors involved in the three main processes of creating, renewing and recommissioning the permit to operate for lifts as well as escalators that fall under BCA's purview. It is required that every new escalator or lift obtain a permit before beginning operations. LEIs can log into the system via their Singpass.

This user manual serves to assist you, the LEI in understanding the different functions of the BCA's LEAP system.

1.1 Terminology Used

Term	Definition
LEAP	Lifts and Escalators Application Portal
PTO	Permit To Operate
SPE	Specialist Professional Engineer in the Specialized Branch of Lift and Escalator Engineering
LEI	Lift and Escalator Inspector
Major A/R	Major alteration or replacement works carried out on any lift or escalator specified in
works	the first column of Part 2 of the Second Schedule of the Building Maintenance and Strata Management (Lift, Escalator and
	Building Maintenance) Regulations 2016

1.2 Statuses used in LEAP

1.2.1 Application Status

Status	Description
Pending SPE Inspection	During new PTO application, SPE selects owner and creates equipment, or
	During recommission PTO application, SPE initiated an application and SPE yet to submit inspection, or
	During renewal PTO application, Owner initiated an application and SPE yet to submit inspection
Pending Payment	During new/recommission PTO application, SPE signed and submitted inspection, or
	During renewal PTO application, Owner initiated renewal application and Owner yet to make payment
Pending PTO Officer Review	During new/recommissioning PTO application, payment was received and SPE has submitted inspection
	results. The application is currently under review by PTO officer.
Complete	During new/recommission PTO application, PTO Officer approved the application, or
	During renewal PTO application, Owner made payment and SPE has also submitted inspection
Rejected	During new/recommissioning PTO application, the application was rejected by PTO officer and the SPE has
	to initiate the application again.
Pending Amendment By SPE	During new/recommission PTO application, PTO Officer rejected the application and route back to SPE for
	amendments e.g., follow up on some clarifications, or missing documents for processing
Pending BCA Engineer Review	During new/recommission PTO application ¹ , Owner made payment and SPE submitted inspection, or
	During renewal PTO application (shortlisted equipment), Owner made payment and SPE submitted
	inspection

¹ Temporarily not applied in LEAP

1.2.2 Equipment Status

Status	Description
Pending SPE Inspection	During new PTO application, SPE has selected owner and created equipment records
Accepted By Owner	During new PTO Application, after SPE submitted inspection for the new equipment, owner
	reviewed and accepted the equipment to be under his/her ownership.
Rejected By Owner	During new PTO Application, after SPE submitted inspection for the new equipment, owner
	reviewed and rejected the equipment to be under his/her ownership.
Pending Owner Acceptance	During new PTO application, SPE has submitted inspection results but owner has not accepted
	the ownership of the equipment
Active	After PTO Officer approves new/recommission PTO application
Active. To suspend from DD/MM/YYYY	PTO is valid but Owner suspends equipment in advance with effect from a future date
Suspended	When Owner suspends an equipment with effect from today
	PTO expired as the PTO Expiry Date is before today
Terminated	When Owner terminates an equipment

1.2.3 Inspection Status

Status	Description
Saved as Draft	SPE has saved the inspection as draft or has not submitted the inspection report with his digital signature
Pending BCA Review	SPE signs and submitted inspection for new/recommission PTO application, or
	SPE signs and submitted inspection for renewal PTO application (shortlisted equipment)
Approved	PTO Officer approved inspection for new/recommission PTO application, or
	SPE approved LEI's inspection (for renewal application only)
Rejected	During new/recommissioning PTO application, the application was rejected by PTO officer and the SPE
	has to initiate the application again.
Pending Amendment By	During new/recommission PTO application, PTO Officer rejected the application and route back to SPE for
SPE	amendments e.g., follow up on some clarifications, or missing documents for processing
Completed	SPE signs and submits inspection for renewal PTO application
Pending SPE Review	LEI submitted inspection for renewal PTO application
Pending Amendment By LEI	SPE routed back to LEI for renewal PTO application

1.2.4 Payment Status

Status	Description
Pending Payment	Payment has not been received.
Paid	Owner makes payment and selected E-Payment and paid via Stripe successfully, or
	Finance Officer updates the payment status to Paid after verifying payment received from Pay Later, or
	GIRO Deduction is successful
Pending Giro	Owner selected GIRO as payment method for Renewal PTO application
Refund Requested	Owner requested for refund, or Finance Officer mark payment for refund
Refunded	Finance Officer updated refund status as refunded
Pending Refund	Finance Officer updated refund status as pending refund
Failed	GIRO Deduction is unsuccessful

1.2.5 Refund Status

Status	Description
Pending Refund	Owner requested for refund, or Finance Officer marked payment for refund
Refunded	Finance Officer updated refund status as refunded
Rejected	Finance Officer updated refund status as rejected

1.3 Logging into the system

To login into the system, LEIs can begin by selecting the LEI login with Singpass. LEI will then upon successful entry be directed to the Singpass web page.

1.4 Role of LEI: Renewal

The process of renewal begins with the Owner. Once initiated, SPEs will receive an email alert whereby they can then begin to conduct the inspection or assign it to the LEI. Once assigned, the LEI can begin the process of assisting to inspect by scanning or uploading the QR code. Do note that past QR codes generated from OPTO can longer be processed. All previous hardcopy documentation will now be submitted via the online inspection checklist. Once the renewal process is completed the new expiration date would be changed automatically.

1.5 The dashboard

Here is the dashboard for the LEAP system. The smart filter, Ongoing renewal furthers assists LEIs to quickly navigate to the desired actions.

Should there be any drafts saved previously during the inspections, LEI can quickly access from the Dashboard page too. Do note that any draft records more than 3 months old will be deleted automatically by the system.

1.6 Equipment list

The equipment list is the main area of the software, whereby most of the required actions happen here. It gives a clear view of all the equipment that belongs to the LEI and can be easily filtered according to requirements.

LE P

2 Renew PTO application

LEIs are only involved in the renewal process. This process of renewal begins with the Owner and once initiated, SPEs will receive an email alert whereby they can then begin to conduct the inspection. This is done by scanning or uploading the QR code of a particular equipment. **This role may be assigned to the LEI to conduct the inspection**. Do note that past QR codes generated from OPTO can no longer be processed. All previous hardcopy documentation will now be submitted via the online inspection checklist. Once the renewal process is completed the new expiration date would be changed automatically.

Owner	SPE	LEI	SPE
 Change expiry date Initiate the renewal process Assign contractors 	 SPE assigns inspection to LEI 	 LEI accepts assignment and does the inspection Inspected PTO is then routed back to SPE (SPE's would be required to use SignSG at the point of final declaration before submitting the completed inspection) 	 SPE completes renewal process Both SPE & Owner can proceed to the equipment list and see that PTO expiry date has been renewed by 1 year

LEI can scan or upload the QR code image to renew PTO applications by following the steps below

- 1. Begin by selecting the equipment list from the sidebar
 - Then select scan/upload code

Only QR codes that have been generated via the LEAP application can be used. Older OPTO QR codes would be invalid.

Building and Construction Authority

Choose a test		Once QR code is verified, the system will take you to the choose a test screen
Start No Load Test for Renewal PTO	Start Full Load Test for Renewal PTO Once you have completed Full Load Test. you are not required to do No Load Test.	 Select Start No Load Test for Renewal PTO
		This moves you to the No Load test inspection screen

NOTE for Full Load Test:

The steps above are also applicable when SPE wants to do Full Load Test (FLT) inspection. The following validation applies to equipment applicable for the Full Load Test (FLT), i.e., Traction Lifts that have the applicable standard CP 2 or SS550.

a) If the Next FLT Expiry Date is not within a 4-month window, the SPE will see both buttons enabled.

b) If the Next FLT Expiry Date is within a 4-month window, the SPE will see only the FLT button enabled.

c) If an application's SPE fails to submit the FLT inspection despite the Next FLT Expiry Date being within a 4-month window, the inspection will be considered complete, and no further FLT is necessary.

Channe a test	Note:

Note:

The LEAP system will not allow the LEI to proceed if there is any non-satisfactory (NS) item. Status of all items (except those marked as "Not Applicable (NA)") should be "Satisfactory (S)", at the point of inspection, before submission.

At this point LEI can save the inspection as draft as well. Drafts can be resumed from the Dashboard page, or by scanning/upload QR code.

The maximum file upload size is 25 MB, and any supporting documents can be uploaded in the Other Observations section.

6 Notifications

In this section, LEI can change the frequency of notifications being received. The email address has to be verified in order to receive emails. Refer to <u>Section 5.2 Changing contact details (email)</u>. Some emails would not be sent if the equipment is terminated or suspended.

Below are the default notification settings for contractor if they are not configured:

- 1. Renewal alert 3 months
- 2. Full load test alert 3 months
- 3. Change in equipment status Weekly
- 4. Change in application status Weekly
- 5. Preferred Channel Email

For Preferred Channel – Email, it will be checked if the email verification is successful.

<	Notification Setting:			1. Select Notification Settings from sidebar
	Renewal Alert I want to receive an alert at least months/weeks before PTO expiry.	 1 month 2 months 3 months 4 months 		 Change frequency for desired alerts Save changes
	Full-load Test Alert I want to receive an alert at least months before full-load test due date.	 2 months 3 months 4 months 5 months 		appear to indicate that the notification change has been successful.
	Change in Equipment Status I want to be notified of all changes in Equipment Status.	 Real-Time Real Time is not recommended if you have a lot of equipment. Daily Weekly Monthly None
